WOULD YOU LIVE HERE?

Last weekend marked a high point in showing the lack of security in the dorms. A series of incidents showed just how far things can get out of hand, in a short period of time, when there is no effective show of security.

Friday night a gun was pulled on two Tech students in front of the Student Union. There were no guards to stop it or even see it.

That same weekend a student was stabbed in his dorm room by an outsider he had been kind enough to take in for the night. All he could do was push his assailant outside his room, there was no other help available.

And if that isn't enough a few days later, a sniper fired at one of the dormitories and succeeded in putting a bullet through a resident's window. Add to this the usual hassles with townies and an occasional (more often lately it seems) assault and it all adds up to a rather pathetic view of oncampus living at Tech.

Could it be that these incidents only receive more publicity this year than last? Hardly.

Perhaps it is our growing student population or increased outside notice of the SUB area with its large amount of activity that is aggravating the present problem. Whichever it is this violence will continue as long as there is no one to stop it. Increased security in and around the dormitories is long overdue. Right now it is at the point where students have to worry about walking over the Textile bridge alone at night.

Would those in the administration who have hemmed and hawed about increasing security be willing to live under these conditions. . . You know they wouldn't. Recently 8 new positions for watchmen have opened up at LTI. It should be evident to those high up in Cumnock where this security should go. Across the river in the dormitories.

In addition those responsible for security had better start looking seriously at the effectiveness of the present security force. . . . These people should be out on visible patrols, looking for trouble in the areas it is most likely to occur, not waiting for it to be reported to them.

The Text and the students have heard all the administration's reasons for the lack of security. This editorial is not asking for more reasons it is pointing out the desperate need for action. Is this school's administration so inept it is unable to provide for the basic needs of its resident students? It appears so.

Just what will it take for the administration to stop talking and start acting?

Dukakis Comes To Lowell

Democratic candidate for Governor, Micheal Dukakis spoke to a group of about 50 people at Lowell State last week. Dukakis stressed the needs of reforming State Government by working constructively together. As for the Greater Lowell area, Dukakis emphasized strongly that this was the type of community from which he came and he would hope that the State Government would help to revitalize the area. Lowell has received no state funds for open space and urban reserves according to an MIT study.

Questions from the floor concerned the upcoming University of Lowell merger. Dukakis is against a merger of U Lowell into a branch of U Mass. He was unsure of how to go about picking a new Board of Trustees but assured everyone of campus and community input. Dr. O'Leary and the State College Board of Trustees will have no effect on the University of Lowell in the long run as adaptations will be made to meet the University's needs. As for the faculty salaries, Mr. Dukakis seemed confused as to the causes of the salary discrepancy and how it could be resolved but assured all that the money would be found somewhere.

On Obscenity Laws Dukakis sees no sense in legislating people's morals. He also stated the present penal system wasn't planned carefully and will work for a system that is constructive and secure. Concerning Rent Control Dukakis is strongly committed to a State option plan.

All in all Dukakis seemed a bit "wishy-washy" concerning almost every issue, but handled himself well amongst many unfamiliar questions concerning the merger.

Trustees at their monthly meeting last Thursday.

(Photo by Tom Duft)

BOARD OF TRUSTEES

The Board of Trustees met last Thursday night and again, nothing eventful occurred. The first item discussed was the situation which now exists concerning Ivy Hall. The 90 day notice which was presented to Mr. Kaknes by the Building Authority may not be valid. His contract as it stands now, ends the first of June, 1975. This means that Mr. Kaknes may still be with us next semester. If, by some miracle, the administration can terminate the existing food contract, Mr. Rigney and President Olsen will take the bids on any new contracts. This matter was referred to the finance committee for further study.

President Olsen also regretfully stated that he had received resignations from Dr. Paulding and one of the R.N.'s in the infirmary. Charlie Harrington then made the suggestion that when another nurse is hired, that

this person be placed on the night shift on a full time basis. President Olsen also brought to the attention of the Board the fact that several maintenance men will be dismissed from the Institute because of excessive absenteeism

A controversial article brought to the attention of the Board was the Professional Opportunity Placement Service (POPS) which Dr. Herman V. Lamark, Director of Placement, is trying to establish. Many members of the Board have no idea what this service will do to help the Institute, so until it is clear to the Board, the whole idea is being sent to the Planning and Development Committee. The reason Dr. Lamark is coming to the Board is that federal funding is required to implement this service.

- Brian Hurley

IDC. . . . AGAIN

The Inter-Dormitory Council (IDC) met for the second time Thursday night to continue planning for future activities. A number of subjects were touched upon, and a few concrete decisions were accomplished. The major accomplishment being the nominations and elections of the Vice President and the Secretary. Ken Georgevits and Randy Hecht were nominated for Vice President, with Ken winning the election. Kathy Beaumont was nominated and elected Secretary. Don Delano, President of IDC, mentioned that a Representative from the IDC to attend the Student Senate meetings should be considered, but nominations will be withheld until a later date.

The second most important event was the forming of two committees. A food committee with the following volunteers: Kathy Beaumont, Roger Lapoint, and Ken Georgevits, with Kathy as chairman, was established. They will be responsible to take any complaints the dorm residents have to Tom Mahoney, manager of both dorm cafeterias, for discussion in hopes of improving the present conditions. The other committee is the Dorm Affair Committee which will act as a mini-IDC. They will make investigations and take polls in the dorms concerning such matters as furniture situations, security, and any items pertinent to the dorms. The following comprise this committee: Tom Bartram, Steve Knight, Greg Kaski, Maureen

LaComb, and Ken Dooley, with Greg acting as chair-

Much discussion involving the present security system took place with the usual complaints brought up. A few suggestions were made for the improvement of the system, such as: increasing number of rounds made, moving the security desks to each door of the dorms, and increasing the number of guards. A motions was made and seconded to write a memo concerning the security system to Dean King and to the Ad-Hock Committee on housing to the Merger Board.

A few other items were discussed concerning the Merger Committee, which is working towards an agreement with LSC on housing once the merger takes place. Don Delano will represent the IDC on the Housing Committee in future meeting. This way, the IDC will have some say in the dorm situation for next year.

Other discussions involved the money appropriated to the IDC and how it will be generated. It was decided that before any purchase or final decision involving the spending of the money is made, the IDC would vote on the action. They hope to purchase a duplicating machine, a typewriter, and to install a phone in the office, Room 622 in the SUB. Don Delano announced that keys to the office will be restricted to officers and committee chairmen, and that the office could be used for any committee meeting.

Food Committee Notes

Last Thursday night the Food Committee met to discuss the progress being made toward setting up a new meal plan for next semester. Several Committee members told of their meeting with representatives of other food companies who could possibly replace Ivy Hall. The food companies contacted included Interstate, United, and Seiler. The companies could not quote any prices until they are given the specifications of the plan we need and the kitchen facilities that are available.

Food contracts from other schools in the area were presented. The price for 21 meals per week for one semester came to \$528.00 at Bridgewater State and \$228.00 at Framingham State. Of course, each school had different specifications in the contract.

It was pointed out that the cost per meal for a non-mandatory plan would be higher than a mandatory one. In fact, the cost would be almost double over a semester's time. The fact that the major part of the profit in mandatory plans comes from the absentees, or people who don't show up for meals was also brought up.

It was then decided to have each representative collect a list of possible meal plans and present them at the next meeting to see which would be the most feasible and popular.

It's the Real Thing

The two of us were just standing there waiting for the coffee to stop dripping when the coke machine said something. It did — it really did. So, we stopped and waited for it to repeat itself. It said, "Mama".

"What?", we said.

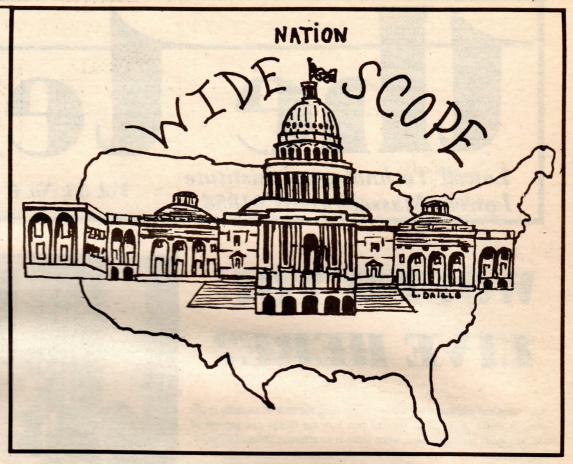

"Mama, mama. . .

What could we do? What could we say? So, we listened while the machine whined.

The coffee stopped dripping, and I picked up the change — 30 cents. (I'd put a quarter in.) Now why would the coffee machine spit back two dimes and two nickles? Just as we turned to go, the coke machine stopped crying and the light for the "uncarbonated orange" button blinked off and on. I think it meant thanks for listening.

Obviously, the coke machine was either underage or growing senile from overwork and long hours. I think it was the latter. Perhaps running out of plastic cups last week was just too much for the poor thing. Then, just the other day it was spitting up ice and last week it got sick all over the floor.

Listen, be kind to those machines. They need attention too. They just don't want to be used. Try to build a lasting relationship with them and keep in mind that most of them are away from their mothers, screwdrivers. and lubricants and are searching for their creators. Also, be patient with them when they don't give the right change or when potato chips get stuck in their throats. After all, they're only machines.

Trial Underway . . .

Last week the trial of the 5 Watergate defendants got underway. The five, consisting of John Ehrlichman, H.R. Haldeman, former Attorney General John Mitchell, Robert C. Mardian, and Kenneth W. Parkinson, are charged with a variety of crimes from perjury to conspiracy to obstruct justice.

John Dean testified as a witness for the prosecution. Recounting his testimony given before the Senate Watergate Committee of two summers ago, the former Presidential Attorney testified that he showed all five defendants secret FBI files on the case two months after the breakin.

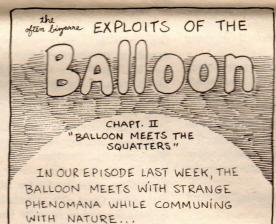

Ford Testifies on Pardon . . .

President Ford made an unprecedented appearance beforethe House Judiciary to explain his pardon of before the House Judiciary to explain his pardon of former President Nixon. Simply stated, the reason for the pardon was to spare the country of indecision regarding the former president's fate. Also, he wanted to "heal" the country's wounds. Oh well. . . . Cancer . . .

To the surprise of many, Happy Rockefeller underwent a radical mastectomy. The First Lady is currently recuperating from breast cancer surgery. To all men and women:

Breast cancer is a serious disease which afflicts many women. Should any females find suspicious lumps in the breast, go have them checked out. Guys, it might be your wife or girlfriend; stand by her and make sure she gets good medical care.

FAIR PLAY?

Dear Editor.

I would like to take this opportunity to formally protest the overturning of the Food Committee election held in the Towers dorm October 3, 1974. It is my belief that Mr. Bosogian and Mr. Titterington have been misinformed, and that their accusations are based on hearsay, fabrication, and mis-information. Courtesy forbids me to call them out and out liars.

In their unsubstantiated claims they state "Under any system of voting it is highly unethical for a candidate to either handle or assist in counting the ballots; as did Cathy Reum in the election in question." (emphasis my

The claim has no basis for fact. In private conversation with Ms. Reum, she assured me that not once did she enter that office; that she in no way handled the election ballots. Further, I have coroboration from Senate member and vote counter Robert Larrabee that such a situation did not exist, and that he would not have allowed her in the office in the first place while counting was in progress. I would also like to add that in as much as Ms. Reum has been involved in so many elections in the past, it is also safe to assume that she would understand the ramifications of such an action and that she would deliberately set out to invalidate her own election I find improbable.

I would like to state that I have been informed that the main witness to these proceedings was RA Peter Krumziek who perported to have a witness to these proceedings. When asked to produce this phantom witness, Krumziek made the flimsy claim that he could not reveal the source. Hence, hearsay evidence, and if Mr. Larrabee and Ms. Reum are to be believed, fabricated evidence as well.

The next claim of the protestors is that "confusion of designated officials in the distribution of ballots and delayed voting time made it quite clear that a reasonable cross section of students could not have been taken."

I find this totally ridiculous. First, in the original (and I maintain legal) election, 45% of the residents here in Towers turned out to vote (213 students). Now in this new election, the numbers begin to dwindle; only about 32% (153 students), could be bothered to vote. What, therefore, happens to our "cross-section of students?" In addition, charges were levelled that the election should be invalidated on the basis that a proper I.D. check was not conducted. In three years here at Tech, I have never once been asked for my card when voting. Therefore, I suggest that every Senate member should stand for a new election if this is to be the basis for overturning an election.

Lastly, I would like to point out that in their original letter of complaint, Titterington and Bogosian make a point of bringing up 'campaign ethics' (see above). However, I am forced to believe that in their opinion, ethics should not have to be extended to include them. Although I was not present during the election, it has been brought to my attention that the two candidates to the Food Committee made statements to the effect that they did not have to fix an election in order to win it; the inference, once more, that Ms. Reum willfully interfered with the elections proceedures, and by implication, me. I would like to point out that this is unsubstantiated slander, and therefore a violation of every ethic, campaign or otherwise.

I therefore demand that the first election be allowed to stand, in that the claims made were inaccurate, that no witnesses could be produced to back these claims, and that finally Titterington and Bogosian violated every stand on ethics by virtue of launching a slur campaign. I would also like to suggest that when this matter again surfaces, that the debate on the issue be open and public, and that an executive session only tends to deepen the gathering clouds of mistrust hovering over the Senate. If it is determined that once again we have a new election, then I suggest Titterington and Bogosian be eliminated on the bais that they did willfully seek to defame the characters of fellow candidates.

Stephen Knight Towers Hall

Is Tuition Increase Necessary?

Dear Editor.

Doesn't the school get enough money from tuition now? The school has gotten along on a \$200 tuition for a while now, and while we don't have all the comforts of home, we get the necessities. Therefore, money is not desperately needed, so why the increase? Why must we have the same tuition as U Mass? U Mass does not offer the same type of education, nor is it as good an education. I didn't come to L.T.I. because of

the tuition. I came to L.T.I. because it offered good courses in C.E. and CHEMISTRY. It appears to me that the increase is totally unnecessary. I don't believe prestige, or trying to keep up with the U Masses is a good reason for raising the tuition. Also most of the students at L.T.I. are here for the education not the money.

The Mysterious Research Center

Last week I talked with Mr. Goodwin who is the director of the research foundation. He said it was founded in 1950 by the legislature, and opened its doors in 1951. It handles the funds for research grants and contracts for the faculty. In the past it has had branches in Billerica, Wright Patterson Air Force Base, Florida, and Plumb Island.

The foundation has an international reputation for ionospheric research. That big blue meteorology truck you may sometimes see parked on the side of the foundation building, services industry by calibrating electronic equipment to the National Bureau of Standards. The parabolic antenna sitting on top of the building was designed and built by the foundation for listening to echos from the moon.

At one time as many as 100 people were employed by the foundation. They did much research and development in the plastic and textile fields. These fields have diminished since then so the L.T.I. faculty currently does the research. The foundation has 30 employees at the present who work mainly in the field of ionospheric physics. The foundation hires as many as 25 L.T.I. students at a time to assist in the development and production of certain items. It currently has four students working on a part time basis. Last year there were 30 students who worked at the foundation with an average income of \$752.

The foundation receives 60% of its funds from the federal government. The rest is from industry or foreign governments including Belgium, Italy, and Germany. The foundation has a feast or famine type of work similar to Raytheon, or any other company whose income is basically dependent on government contracts.

The foundation uses L.T.I.'s library, but in addition has its own small library. These books are not found on the campus library. Mr. Goodwin doesn't think the merger will seriously effect the schools reputation. He is hopeful it will benefit all. He even reads the TEXT.

ROOM

A new slate of officers were elected by the grad students at their meeting

last week. They are: President- Peggy Palmer Vice President- Jim Martin Treasurer- Doug Krah

Secretary- Rita Quigley Institute Council Rep- Pete Krumsiek

The new faculty advisor will be elected by the new Association at their first meeting.

Nominations are being solicited for representatives from each of seven grouped departments. You will receive notification of this through your STUDENT MAILBOX. Nominations will close Thursday OCT. 24. Ballots will be printed and elections will be conducted through the STUDENT MAILROOM. The first open association meeting will be Nov. 5th. Check the next issues of the Text for times and places.

Dean Alexander addressed the body stressing the importance of the merger on the grad. school. He has asked for concerned involvement on the part of each and every graduate student.

PLEASE!!! We are here to serve you. We can't do it unless we know what you need and want.

The following is the list of persons who have volunteered to run the departmental elections:

(CH) Dick Scheel - Chemistry and Polymers (Ph) John Nardini- NU, RS, Applied Bio., Ph

(ME) Dave Vine- ME and TE

Cliff Bruell- ChE, Paper and ES

(Pl) Pedro Rondon- Plastics

John Cardoni- (EE)- EE, Systems, Civil, and Computer

(MA) Rita Quigley- MG and MA

Thanks From Pres.

To all graduate students:

I would like to thank all the grad students who attended the last meeting of the GSA, particularly those who voted for me for president. I hope that I can live up to the expectations of you all.

I have heard rumors that the other new officers

GSA is staging a come-back. We all hope that you've heard the same and that 'you're willing and curious enough to find out what the GSA is and how it can serve you. See this issue for more details.

Congratulations to all of the

Peggy Palmer

MPB Sub Committee

The MPB Sub-Committee of Student Affairs gave their report to the Merger Board which included the incorporation of one student newspaper and yearbook for the University. They also recommended that the two student governments be given two months to resolve problems of governance between the two representative bodies. These were all accepted.

The proposal was accepted for a Bachelor of Science Degree in the area of criminal justice and law enforcement, currently a program in the Evening School Division under the College of General Studies. Designed for inservice police officers, the program presently offers an Associates degree.

Concerning the graduate school of the University of Lowell, Dean Alexander (LTI) noted that the grad-school had been left out of the University brochure. The idea of a combined brochure (LTI-LSC) was discussed. However, differences do exist between the two colleges, mainly the fact that LTI's grad school is full time and LSC's is part-time. Finally, a committee was suggested which would include the two Graduate School Deans, the two faculty chairmen of the Grad School and the two Presidents of the Graduate Student Associations. This committee would solve problems regarding a brochure, catalog and the like.

In the area of registration, a budget projection was made totaling \$57,-500 which included two systems analysts for one year and an additional secretary/typist. These two items met with some opposition from the MPB. (Why the need for extra personnel?) LTI Registrar Frank Duggan stressed that a main problem was getting out the schedule to stud time for pre-registration; a master schedule of all courses offered. The problem of a common list of courses entered here since no schedule could be made without a common agreement between the faculties on the programs offered and corresponding list of courses in each area. The final decision on the money for registration was to receive the projection, but that a more detailed registration system be drawn up.

- D. Kolodziej

gratefully received.

itself is to be valuable. Faith in the wrong object is not valuable - it is DISASTROUS. You may have all the faith you can muster in the brakes of your car; however, if the into the dark bathroom, and in faith take the tablet which you think to be aspirin but mistakenly take a roach tablet, they may inscribe on your tombstone, "HE DIED IN FAITH," but your faith was in an object not worthy of your confidence. Faith, to have any value, must be in a valuable object.

When it comes to your eternal welfare, only JESUS CHRIST is or anything else in order to receive eternal life would prove to be utterly useless. The BIBLE says to come to JESUS in "CHILD-LIKE FAITH," accepting the gift of salvation from your sins. By doing this, you can receive a peace and joy which can only come when you know that JESUS is living in and

Re-Elect Rick Kelley

Sec.-Treas. Class of '76

JUNIORS -

As president of our class last

year, we achieved a goal that few classes can equal, and that was cooperation between the "Class of 1976" of LTI and LSC. Both

classes sponsored many successful

events which were enjoyed by a

large number of students. As

Secretary-Treasurer of our class, I

will strive to continue on this path.

Being a class officer for the past two years I know the financial posi-

tion of our class and how to best allocated money to benefit our

VOTE GARY CANNAVO

SECRETARY-TREASURER

FOR THE "CLASS OF 1976".

Class -

I am asking for your vote on benefit the class in our coming Wednesday. As Secretary-Treasurer of the previous year, I feel I have gained the experience to continue this job in a way that will

Thank you Rick Kelley Sec.-Treas. '76

Thank you,

Gary Cannavo

The Kingdom of God on Earth

'Jesus came into Galilee preaching the Kingdom of God and saying; the time is fulfilled, and The Kingdom of God is at hand: Repent and believe the

Mark 1:15

The gospel that Jesus preached was the gospel of the kingdom of God. He said, recorded in Matthew 6:10 to pray for God's kingdom to come to Earth. Jesus himself is the way into the kingdom. Besides calling himself the way, the Truth and the life, he also said (John 10:9) "I am the door, by me if any man enter in, he shall be saved, and shall go in and out, and shall find

The kingdom of God, also called the kingdom of heaven in Matthew's gospel, is soon coming to the Earth. There will be a totally new order of things, every thing will be changed Christ himself will be the king. Isaiah chapter 65:17-25 speaks of things such as sickness being restrained and a man that dies at one hundred years of age

will still be only a child. Everyone will have enough to eat and have work to do that they will enjoy. Best of all, the whole Earth will worship the God of Israel. (Isaiah 66:23) Man will no more be allowed to destroy the Earth because God did not create the earth in vain, but he formed it to be inhabited, (Isaiah 45:18) and in Ecclesiastes 1:4 we are told that the earth abides forever. There will be peace in the kingdom and only righteous judgement will be made. (Isaiah 2:1-5)

Who will be in this great kingdom? We are told in Daniel 7:18 that the Saints of the Most High shall possess the kingdom forever. They will be the rulers of this kingdom, but also, after Christ returns and fights for his people; and there will be great destruction at that time, (Zechariah 14) there will be people left of the nations that Christ will light and they will live and worship the God of Israel, Yahweh is His Name. These people will live and die, although their life spans will be extended, and they will learn the ways of God. They will at the end of a thousand years, which is how long Christ will reign, be raised from death and judged. At that time, the righteous will be given immortality and the wicked will be destroyed; and finally, the great enemy of mankind, death itself, will be destroyed. Christ will at that time hand over the kingdom to God, that God may be all in all. (1 Corinthians 15)

The only way to be part of this kingdom is to follow Christ now; to obey his commandments. Jesus said he was dying for his friends who are those who do whatsoever he has commanded. (John 15:14) That is to repent of your sins, be baptised believing the gospel of the kindgom and in the name of Jesus Christ, and pattern your whole life after the way that Christ has set before us. The whole story can be found in the Bible, not just the new testament, but the whole Bible. I will be glad to you if you have any questions or comments. Drop up to Smith 422 or write a note to me at Box 2588, my name is

Is Your Faith Valuable?

Have you ever considered what makes faith valuable? Some seem to think that faith has an intrinsic value and they say, "HAVE FAITH". I submit that faith must be in a valuable object if the faith fluid line is broken your brakes will Your GSA not stop the car and neither will

your faith. If you awaken in the worthy of your confidence and night with a headache and stumble trust. To have faith in anyone else

through you.

NATIONAL DIRECT STUDENT LOANS Are Now Being Accepted By the Financial Aid Office. All Applicants Must File

New Applications.

Applications for Second

Semester

Any person interested in helping or participating through committee memberships is urged to contact any one of the officers. Any ideas or suggestions will be

ELECTIONS

Important Decision

At this time next year, if you make it through this one, the students of the class of 1978 will be sophomores at Lowell University. We are the largest freshmen class to enter Lowell Tech. and as it now stands we will be the first freshmen class to graduate from L.U. With this in mind I hope everyone in this class realizes the new responsibilities that will be placed upon us. The officers elected to head the freshmen class will be part of this transition and hopefully form a more unified student body. In running for class president I feel that it is up to this years freshman class to make the most out of this transition by participating in all aspects of it. By representing you as president, I know I will be getting much satisfaction from presenting your ideas on every issue. Please let me know your thoughts about anything at hand. It's up to you to make your stay at L.U. the most rewarding experience of your life.

John Lawrence For President Class of 1978

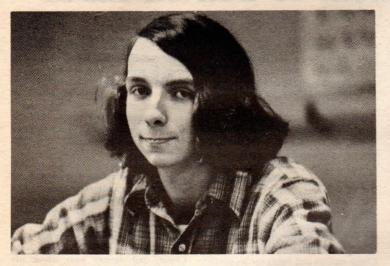

Don Hogan Senator-Class of 1978

I am running for student Senator for the class of 1978 because I feel that I would be an asset to the senate. Not too many people know exactly what the senate does especially freshmen. As a senator, I along with the other senators, will communicate to the students,

especially freshmen, just what goes on. So please when you vote on Wednesday October 23, please consider me for the position of student senator for the class of

> Thank You Don Hogan

Attention of "78"

I am running for the student senate. If I am elected I will do my best to improve the lives of the LTI students both dorm and commuters.

I would like to help you but I need your help to be elected please vote for me for student senate. Thank you Alan J. Dressler

I can be reached at Bourgeiois Hall or PO Box #1596 LTI.

Class of 1978

College is supposed to be the time of our lives. Let's make it happen. Vote Ed Bender for freshman class president.

Bill Tobin

The main job of the Student Senate is to put excitement into the lives of the Student Body. Not to bore them to death with facts and figures or other forms of red tape. Try to change the system - vote for me Bill Tobin for senator class of Sincere Thanks,

William R. Tobin

FRESHMEN

Don't be apathetical! Vote Oct. 23 for the people you want to be represented by. Even if you don't want to get into the action; why not vote for someone who does.

> Paul Morse Student Senate Class of 1978 Box 1345

1978

I am running for senator. All of us myself included have been here for the same amount of time. I believe I have as much ability as anyone to hold the office of Senator. Already I have seen things that are in need of change, but what you see as a student body is the most important factor. Let me know of your problems as well as your ideas to improve the school. The only way these things will be changed is through the unity of the students. We have to let the higher ups know our opinions. We have to apply constant pressure. If we start something moving with the administration it has to be continuous. As soon as the student body lets an issue slide you can be sure any one else concerned will let it drop. I have just stated the principle I will follow if I am elected. If you agree with me I am sure that with your achieve satisfaction and results from whatever activities we participate in.

Mark Allen Wilks

Bob Brown Senator Class of '78

You are probably saying to yourself who is this guy and why should I vote for him? The answer is that I am just a freshman like yourself; a freshman who cares. I am not going to make promises here which I can not keep, but just say I will do, if elected, the best job I can. Your help, now and after the election will be greatly appreciated. Vote Bob Brown, Senator, Class of 1978 and let my results speak for

Steve Dunn For Senator Class of 1975

Steve Dunn and I would appreciate effective in representing you during your vote in the upcoming election. the approaching merger and We will only have one semester un- throughout our final month's. der the University of Lowell, and I

Seniors Hello!!! My name is feel confident I can be extremely

Thank you, Steve Dunn

To the Class of

Freshman, is this election going to be another popularity contest. Hopefully it won't. You are here at Tech and will be here for the years of your life. Responsible representation from our class is extremely important and I am hoping you can put your trust in me to represent you fairly. My ideas on the life here, changes to be made and alterations here are important, but your ideas are the most important. In order to give you fair representation I need your ideas. If elected, my room will be open for you to convey your thoughts to me. Any problems or complaints I'll gladly listen to. You need good representation and I need your help. Elect me Dennis J. Gunson for student senate in the class of "78"

EQUAL OPPORTUNITY:

Affirmative Action: What Does It Mean?

June Gonsalves, our own equal opportunity/affirmative action officer. Who recently resigned her position as secretary of the Institute Council to become the EEO officer. Ms. Gonsalves is relatively new to this position, since the position itself was recently acquired. June does possess the stamina required to handle the complaints and to help establish an equal hiring practice for all applicants. Ms. Gonsalves states that she is trying to institutionalize

V, VO. 16 12

Affirmative Action, to make it a part of LTI. Most of her work is done in the hiring aspect of LTI.

Ms. Gonsalves works closely with Manpower, HEW and other community legislative groups, with their help hiring practices at LTI becoming more and more stablized at this point. Another aspect is the promotion of employees, all promotions are subject to review by Ms. Gonxalves.

She also played an important

I would like to say again that Ms. Gonsalves duties involves the hiring, admissions and discrimination complaints. On the admissions policy the flowchart continues right through the stay of student at LTI. Lowell Tech has been an all white institution for so many years, and there is a great deal of education needed at all levels of the institution. Minoritys are here at Tech and are part of the main stream of the College life. The theme; discrimination because of Race, Creed, National Origin and sex is OUTLAWED in this country. Further more the majority of American people will not stand for such a bigoted process to exist in a free nation. A nation governed by checks and balances, after all thats what we the American people are all about: A Fair Break to One and

part in helping to recruit Black Students here at LTI. June is the soul force in her position, she works alone and at this time she does not have a secretary or an assistant. She diligently handles all processing and followthrough on all complaints received in her of-

LTI Trustees

Editors note: this is the first in a series of articles on LTI's trustees. Its object is to familiarize the student with the role, duties and the individual personalities of a few prominent members on the Board of Trustees. The Board members are appointed by the governor (except for the student trustee) and are the policy making body of the Institute.

The duties of the members include attending the monthly trustee meetings, researching the diversified issue and reading the paraphenalia sent to them concerning many topics which face the trustees.

It is hoped these articles will acquaint the reader with the Board member's views on various topics and provide an insight to the kind of people who are making the major policy-making decisions of your

Stan Molignano: Student Trustee

Stan Molignano, our student trustee, is a senior majoring in accounting. Stan, who was a senate member before being elected to Student Trustee last May, is a native of Weymouth.

On the question of tuitions, Stan feels that an increase would be of no benefit to students at Tech because all money goes to the state first and then appropiated back to the colleges. Any increase in the present tuition would only increase the state's coffers and become an additional expense to students.

Stan said he was originally against the merger of LTI and LSC but now sees the best of the two colleges in the form of a university. When questioned about the President of such a university, Stan felt he didn't know enough about Dr. O'Leary to offer an opinion

Stan felt the Food Committee is an excellent idea and believes it will be able to accomplish a great deal. He also agreed with the graduate students that they should not have on a limited basis since they get little or no use from it. Also with

reference to the SUB, Stan would like to see an expansion of the game room and a CVS - Store 24. He said that having the Rathskeller become incorporated was a step in the right direction.

When questioned about the work of the trustees, Stan said he thinks they have done an effective job so far but believes that they, including himself, could do more and should be more aware of what is happening at the college. At present, there are no major issues involving the trustees but that should not be reason to relax. He believes President Olsen acts in a fair manner for everyone.

Stan stated he would like to become more involved with the students and will be available in his office, SUB rm. 410 Tues. and Thurs. from 12 to 2 pm. Or stop him anytime you see him. At present, Stan is on crutches due to strained ligament from a football game. He is your input to the Trustees - let him know how you to pay the SUB fee or at least do it feel and what you would like to see

Etta Kappa Nu Student Aid

Two upper class students are undertaking a very worthwhile student help project as part of their pledge activities to the ETA NU KAPPA HONOR SOCIETY# Michael Hadavi, EE and Monty Montgomery, EE, have volunteered to assist student FORTRAN programmers such as those students in EE 327, MA 361 and others. These two seniors will

be stationed in room OL 102 during the hours 9-11 on Mondays and Fridays and 9-10 on Wednesdays. Since they have FORTRAN experience they will assist students in control card errors, interpretation of error messages, programming procedures and other problems. Beginning students would do well to avail themselves of this service.

BROSHMIDN

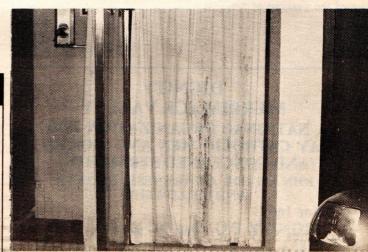

Applications for membership in the Society for the Advancement of Management (S.A.M.) will be accepted from freshmen up until Friday, October 25, 1974.

S.A.M. is the only management organization on campus. Its function is to take the student from the theoretical text book world into applicable "Real" world situations, while at the same time providing a social outlet for the student.

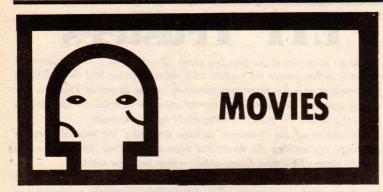

Last year S.A.M. functions included a trip to the Budweiser plant and to the Star Market distribution center; a number of dinner meetings, where students and teachers interact at an extremely enjoyable social event; Career Day, where the student was placed for a day in a professional field of his choosing; Spring Carnival Activity, Nixon dart board/beer booth; and (last but not least) our annual Christmas Party, students and teachers loosen up after a semester of hard work and a good time is had by all. This year S.A.M. is planning Success Seminar, where students will be matched with companies in their respective fields of study; field trips to Logan Airport, Budweiser Brewery, and the Federal Reserve Bank of Boston; a semester trip to New York during the Christmas break; many dinner meetings, a Spring Carnival booth, and of of course our annual Christmas Party at the end of the semester.

If interested in joining S.A.M. or in obtaining more information about our organization, contact Dan Robichaud Box 1847. Remember S.A.M. is the only management organization on campus and S.A.M. provides a chance for the student to get professional exposure while in a social environment.

Dan Robichaud Membership Chairman S.A.M.

A.V.S. Movie

Executive Action

Burt Lancaster, Robert Ryan, Will Geer Rated: PG

November 22, 1963. The day that rocked history. President John Fitzgerald Kennedy was cut down by an assassin's bullet. Was it really the crime of one man: Lee Harvey Oswald? or was it in fact, a conspiracy? Kennedy had not hidden his determination to reduce U.S. military bases or to avoid having United States troops in Vietnam. He strongly supported a Nuclear Test Ban Treaty and the Civil Rights Movement. The Bay of Pigs had left a bad taste with many powerful men in the United States. The only way these powerful men could bring a halt to the policies which might destroy their hold on the economy, would be the assassination of a President. Executive Action shows how they might have set about arranging it, from the training of expert marksmen to influencing the route of the Presidential Motorcade in Dallas and setting up Lee Harvey Oswald as a decoy, while the actual assassins fled the country. Through extensive research into John Kennedy's assassination, as reported by the Warren Commission, Executive Action lays it out telling it as it happened. Only the conspirators are ficticious Everything else is based on fact.

In the three year period which followed the murder of John Kennedy and Lee Harvey Oswald, eighteen material witnesses died — six by gunfire, three in motor accidents, two by suicide, one from a cut throat, one from a karate chop to the neck, three from heart attacks, and two from natural causes. An actuary, engaged by the London Sunday Times concluded that on November 22, 1963, the odds against these witnesses being dead by February, 1967, were one hundred thousand trillion

All The King's Men

Broderick Crawford, Joanne Dru, Mercedes McCambridge

Rated:R

Based on Robert Penn Warren's Pulitzer Prize novel, concerning the life and death of the late Huey Long and the dangers inherent in personal ambition and unscrupulous command of power. En route, from an ignorant farmer to the governor's chair, he ruthlessly makes and breaks his personal friends. As governor, his state takes on the aspect of a great memorial, due to constant effort to "improve" the lot of the common man. The populace is easily bamboozled into backing their leader to the hilt, even when his blackest deeds are known. All The King's Men is a compelling and a forceful drama.

TIME: 109 min. Shown at Lowell State on Tuesday October 22 starting at 11 p.m. in Lecture Hall #1 in the Weeds Building, this movie Is FREE to all Lowell Tech and Lowell State

MULGING

Situated in downtown Medford, Peking at Mystic offers one of the worst buffets you'll ever splurge \$4.50

After being so blunt, we should offer some explanation. If variety's what you like in Chinese food, Peking offers at least fourteen varieties every evening from 6:00-8:30 P.M. Perhaps it was the spare ribs cut in thirds or the cold egg rolls and generally unappetizing

If you manage to stay away from this suggestion (we

highly recommend it), you can indulge in some of the more delectable Polynesian dishes. The Poo-Poo platter seemed well worth the \$8.00.

Service was friendly enough, and setting quite informal with booths, center tables, and unusually bright for a Chinese place.

However, after trying to down a less than appetizing buffet we quickly exited front door . . . to eat another dinner. Only this time we chose no risk; an old favorite of the Text, Jacob Wirth & Co. in Boston.

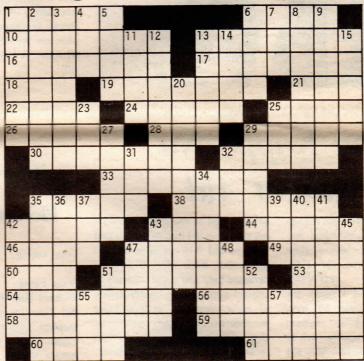

The Astronomy Club presents

The Origin of the Elements'

This Thursday there will be a meeting of the Astronomy Club. There will be a film shown 'The Origin of the Elements'. This film portrays the birth, life and death of these concurrent stellar and nuclear membership is open to all LTI & processes. The film will be shown between 12-2 on Thursday in room OG-23 (the new science building)

the stars. It is a visual biography of All are welcome to join the club, LSC students.

Sigma Phi Omicron

Too bad the rest of you missed our hat party Saturday. Everyone really got into their hats, especially the poor bastard who won. Don't forget the 30th next Wednesday. Our Halloween party will really show some talent when you see the costumes we can put together. Our football team posted another victory for us when we beat DK last Tuesday, 22-0. It is our hope that we will take the trophy this year. Don't forget, you don't have to wait for a party to come over, we are open all day, 365 days a year. We may even be able to solve academic problems for you.

SIG SHIT: It seems that Dave found the toilet on the third floor in the penthouse: you'd be surprised how much piss a window sill could hold. Moosehead Lake proved to be too much when the Half-Assed Half Dozen and one Arabian chicken ventured to heed the call of the wild. Rick, how do we get the cooler out of the door? Message from the penthouse: Who has been sleeping in my bed?, Rich. Joan is coming for her encore. Did you ever drive to Maine to pick up a chick for a night and find she only came for the ride? Is it true Billy took out a three year life insurance policy on

himself just in case Nancy gets bitchy again. It seems Roix's southern belle doesn't ring his chimes. Coke, when is your sister bringing that Fly-Flogger back? How come Willie never gets fined? Is Yaz afraid of dish-pan hands? Thanks for ordering the kegs, Pig. The Midnight Chariot Supply Company is once again in business. Harry, you should have bought a tank, it only gets 8 gallons to a mile, but it never needs an inspection sticker. Hey Bulldog, stickers are red now, not yellow. Piggy, the hospital finally caught up with you. What does a one-armed, no-necked stone finger do after pissing on someone's bed? Answer: He asks you if you want to do it, then climbs into bed with his roommate. The AA came to give Steve another interview. Costa sucks, Costa sucks, Costa sucks, Costa sucks, Costa sucks, Costa sucks. Titz studies under the light reflected from beer bottles. Chaz, how is your sex life? Let us know after you play a few more games of pool. Vince and Fly had their heads relandscaped last week. Rich found out that grades are inversely proportional to study time. We know a good marriage counselor, Glenn.

Pi Lambda Phi

Finally have an article that is up to date. We had a little mix up over at the text office and our last article was about three weeks old Since then our football team lost to Phi Psi and O Pi (thanks for the gustos), but we didn't go down without a fight. PLP is having an "invitation only" party Nov. 15, featuring the Dave Buckwheat Band. Plenty of Booze and girls will be showing up. If interested in coming to this party contact one of the brothers. It will give you a chance to look over the house and to meet a few brothers. Also, this week starts our slave auction. So if you've any work to be done give us a call

What is a college fraternity. . . .

This question causes serious concern to many young men about to enter college. The answer may be the means of securing a full life on campus and many enjoyable lifelong friendships. The Greek letter fraternity is the outgrowth of men's natural desire to associate himself with men of similar ideas and ideals

The fraternity, in its highest expression, is not merely an eating or social club. It is an inner spirit, at once both idealistic and practical. It is a group of men each of whom contributes to the group and each other, all deriving mutual benefits from their associations.

Its purposes are manifold. It develops one's personality and promotes mutual understanding. It provides business training and prepares the college graduate for his future as an American citizen. Why join Phi Lambda Phi. . . .

To those within his brotherhood this question requires no answer, yet to the uninitiated, expression is difficult. Men of Pi Lambda Phi have bound themselves together for over half a century that they may live more useful lives. The lasting friendships, the high ideals, the spirit of Pi Lambda Phi - these must be experienced; and therefore to the prospective initiate we can only point to our history, the character and loyalty of our

strength of our fraternity, the who was this

man?

He was born on May 23, 1844 in Persia. He and his father both spent most of their lives in jail, but neither committed any crimes. Both he and his father were prolific writers. When he was released from jail he traveled in the Western World and in 1911-1912 spent a good amount of time in the U.S. speaking at schools and universities. Though he spoke very little English he was understood everywhere.

For anyone who is interested in finding out who this man was may contact William German Box 1742 or for those who know who he was please contact Steve Yazhri Box

Well, so much for one parade. Squadron-N officially opened its season by attending the Lowell Regatta Parade. We looked terrific as usual but had some trouble using bayonets in such a large crowd. Between the parade and the Oktoberfest it was a large weekend

We have plans in the making for three drill meets this year. There would have been more but we couldn't afford to go. Anyway at least three times this year Lowell Tech will be represented.

Manuevers will be coming up soon. This will consist of tactics and range firing at Fort Devens. It should be a great time as always.

Voting was held today for club sponsor but as of this date we do not know the outcome.

Our pledging is still underway. This year holds some great prospects for us.

Wishing all in the land of Tech

- The Brotherhood of Pershing Rifles

Transcendental Meditation

Next week, SIMS-LTI is presenting a lecture entitled, "An Introduction To Transcendental Meditation: Increasing Productivity, Creativity, And Intelligence." The lecture will be at 12:30 on Tuesday October 29 in F-207 and all Lowell Tech students and faculty are invited.

E.E. major Jerry Schweitzer, who is Vice-President of SIMS-LTI, said of Transcendental Meditation or "TM" as meditators refer to it, "It sounds like something way out but it isn't. It's great. It's easy to do and the benefits of it are fantastic. The purpose of SIMS-LTI - that's the Students' International Meditation Society at Lowell Tech - is to make TM as accessible as possible to everyone at LTI.

Recently many scientists have become extremely interested in TM. TM isn't a philosophy or a religion. It's a simple, natural, easily learned mental technique that's practiced for about 20 minutes twice a day.

The lecture next Tuesday will include a presentation on the latest scientific research on TM. Research at Harvard Medical School and many other universities has shown that TM produces a unique state of wakeful rest that results in significantly increased learning ability, increased intelligence growth rate, decreased anxiety and nervousness, and many physiological changes which indicate a more creative style of functioning of the nervous system.

Not only does the research indicate that TM results in more creative and intelligent thinking, but also improved coordination, greater resistance to fatigue, and faster reaction time. For this last reason, many notable athletes — such as many of the Philadelphia Phillies, Bill Walton and Joe Namath — are practicing

"It really does work," says Jerry. "Just because of these 20 miutes twice a day. I feel much more clear thinking and well-organized and have more time to study and do other things that I've never found time to do before.

Jerry continued, "This month we had a display in the Library on TM. Many people have told me they saw the display and were interested.

et this lecture up so that students and faculty of LPI will have a chance to find out about and take advantage of this tool to live life to its fullest potential for creativity and happiness. If you have the time, you ought to come.

For more information or a copy of "Scientific Research On Transcendental Meditation," contact SIMS at its permanent office off-campus at 66 Hall Road in Chelmsford, phone 256-7615. Or drop a note to Jerry Schweitzer, Box 467, LTI. We'll be celebrating World Plan Week — USA on campus from November 10-17. Watch the Text for further developments.

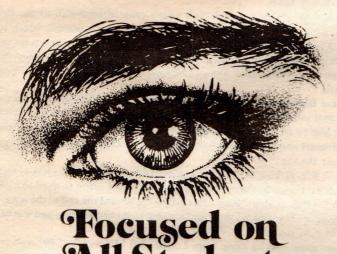

Students at Lowell State are invited to an introductory lecture on TM at 11 AM in SN-204, also on Tuesday October 29.

For students and faculty who have already been instructed in TM there will be an advanced lecture at LTI this Thursday October 24, noon, in F-207. This will be the first in a regular series SIMS has planned for TM'ers on campus.

TERRIERS TASTE

Worcester for two games this past week, coming from behind in both to tie Holy Cross two to two, and

L.T.I. struck first against Holy Cross at 15:02, when Al Doig slammed home a rebound as Dave Luna's shot hit the post. It didn't stand up long as Dave Welsh and Dennis Darcey, the leading scorer in the New England Soccer League, both scored in the last five minutes of the half to take a two to

one lead for the hometeam. Only four minutes gone in the secondhalf. Frosh John Kalkajian evened it up, when he headed in a corner beating Clark University three to kick from Carl Maki. The Crusaders went ahead again on Dave Welch's second goal at 30:42. Lowell kept pressing and it payed off with less than 10 minutes left in the game, as Carl Maki decked goalie Ed Williams and then blasted one through his outstretched hands to give Tech a three to three tie. Lowell dominated play the second half taking 20 shots. Dave D'olimpio

net with 16 saves, and Carl Maki and John Kalkajian also turned in outstanding games. Lowell finally broke into the winning column rallying to best Clark three to two. Tech dominated the game as they took 16 corner kicks to a mere 4 for

Again L.T.I. was first on the board as Bill George made an excellent play setting up Dave Luna at 18:10. The home club came back late in the half with a goal by Alex Okafer to make it one to one at the half. Only a few minutes into the second half. Okafer scored his second goal to put Clark in front two to one. At 17:12 Al Doig tied it up, with his third goal of the season, assisted by George. With less than game, Junior Carl Maki beat goalie Massood Abolfalzi on a breakaway, as again Willie George, with his third assist of the afternoon sent Maki in, to give the Terrier's a long-waited exhilarating victory. Key strategy was used by second year Coach Nash Helmy, as he assigned Sophomore Carlos Vega to cover the exceptionally talented Okafer, who was only able to get one shot off for the remainder of the game. Tech is now 1-4-2 with all four loses coming by one goal. The young aggressive local boosters will be off to M.I.T. and powerful Brandeis

Steve "Spaso" Dunn

Amadu Sesay starts the Tech offense rolling against Bentley, assisted by Pete Folger and Frosh Dave Jackynm, as they tied 3-3

(Photo by D. Shea)

Cross Country Hits Roadblock

The Lowell Tech cross country team ran into some stiff competition last Saturday at Franklin Park as they were defeated by MIT and Boston

Pete Phillips finished first for the team coming in ninth overall. Mike Orlando and Tom Connick came in eleventh and twelfth respectively. Bill Barnhart finished fifteenth with John Sherman in sixteenth place.

The team is still hampered by injuries, but is continuing to train hard for its next two meets at Franklin Park.

Fall Baseball Has Ended

The fall baseball team ended its season last weekend with a doubleheader loss to Mass. Bay. This evened LTI's record at six wins and

It turned out to be a rather disappointing season after last year's 10 - 4 -1 record. There were some signs however, that the spring will bring

Coach Jim Stone labelled "this year's crop of freshman as the best potential of any other group since that of last year's seniors, which included four year letter winners Tom Jenkins, Bob Carroll, Leo Casey and Art Santos." This year's group included Steve Bennett, Rick Ries, Bill Maloney, Ed Glasheen, Danny Newall, Matt Fitzgerald and Tipper

Steve Bennett is a six foot, four inch catcher-first baseman from Nauset Regional and lives in Eastham. Steve impressed everybody with his hitting as he had 17 hits in 36 at bats for a .472 average. He had a pair of triples and homers and had 15 runs batted in, all of which were either team highs

Rick Ries is from Weymouth and played the outfield and some at third and short. Coach Stone even moved Captain Bill Carroll to third to make room for Ries at short. Rick came on strong toward the end of the season, finishing at .314, and led the team in stolen bases and doubles and was second in runs scored.

Four more rookies came from Lowell. Bill Maloney hit .280 with two homers and a couple of triples. He also added two wins while pitching eight shutout innings. Ed Glasheen went to school in New Hampshire, but is from Lowell, and looked good the outfield with a strong arm and improved on his hitting throughout the season. Danny Newall looked sharp while pitching in six games but needs to improve a bit on his control. Tripper Durkin had a pair of appearances (one good, one bad) and will help out in the spring.

Also helping out will be Matt Fitzgerald, another lefty, from Plaistow N.H. (a hometown product of Coach Stone). Matt looked good but has to conquer his control problem.

The returning veterans (only five played much this fall) all looked good after a short summer. Pitchers Billy Fulton and Billy Eggers combined for half the teams wins and had 1.23 and 3.42 earned run averages respec-

Captain Carroll led the team in runs scored and was second in average (.378), hits, RBI, and homers, from his clean-up position. He and second baseman Leo Gendron formed a fine double play combo and second and led the LTI attack. Gendron hit .323 and led the team in homers with

Sophomore Gus Sharry finished very strong and hit .294 after going hitless in his first three games.

The outlook for the spring is good. The strong point seems to be its pitching and it is the pitching that will be needed for Lowell Tech to be considered for any post season tournaments.

During the fall the team batting average was .293, but it was not against the calibre of pitching that it will face in the spring. The team ERA of 4.83 must be improved on and hopefully will receive more defensive support than in the fall.

One thing is sure, there will be a lot of new faces in the spring and the type of baseball being played should differ from the high scoring slugfests of the past several years.

even more events coming up. Whether you want to participate seriously with a varsity team or just have a good time with co-ed sports or Intramurals, there's something for you

TEAM SPORTS

The women's Basketball club met October 16th with twenty-two prospective players showing up. However, there is still room for anyone who would like to try out. Practices are held on Monday from 4 to 6. This looks like a promising year.

The volleyball team lost its first match against Lowell State but did fine for the first time out. On October 17th there was a match against Endicott and there will be one against Framingham State Nov. 18th.

The varsity tennis team's last opponent was Brandeis, whose strong team won. Nancy Hansford, Sue Geddes, Sheila Keon and Linda Vincent all displayed fine effort and deserve credit for their spirit. The last game of the year will be held on October 24th at 3:30 against Bentley behind the Costello Gym. Please show up and give these girls your support. If you're interested in getting involved in tennis, practices will start in January for the games next spring.

CO-ED SPORTS

The finals have been reached in the Tennis Co-Ed Doubles Tournament. Jeri Meyers and Joe Smith will play Nancy Hansford and Mickey Miller for the championship.

The gym is still the best place to be on Wednesday nights when the co-ed volleyball games are held. At this time, the three front runners are teams #2, 8, and 14, all with 3-0 records. There were upsets last week and it's anyone's guess who the champs will be.

INTRAMURALS

If intramural basketball is anything like it was last

The gym is alive with activity this time of year with year, everyone will have a great time and get lots of exercise in the process. The first games will be held on the night of November 6th and rosters should be into Pat McCoy at the gym by October 30th. So, get a team together (with no more than 12 people please) and submit your roster. More information is available

> Women's Intramural Softball will be held October 29th and 31st, from 12 to 2. Information about this can be found posted in the Women's lounge, Eames Hall, Annex 3 or 7, SUB 13th floor, or the women's locker

Swimming intramurals will have 8 events:

25 yard sidestroke

50 yard free

100 yard free relay

25 yard backstroke 100 yard free

2 dives front and back

100 yard team relay Order: back-breast-side-free

50 yard breast stroke

These events will be held at the gym pool on November 7th at 4 PM. The limit will be four individual events and you can sign up in PE 308. More information is available there also.

If none of these appeal to you there is basketball referring (experience or schooling preferred) or cheerleading. Anyone interested in refereeing can see Pat, and any prospective cheerleaders can contact Kary Robertson, box 541. Please specify your box number when you do this.

As you can see, there's plenty of activity in the gym for women so get in on the exercise and the fun.

- Lisi Daigle

LOST & FOUND

REWARD

For any information leading to the recovery of a silver ring, size 6. It has a main strand of six diamonds, flanked on either side by a strand of 4 rubies. This was a very special gift, from a very special person. Any information will be appreciated. Contact Leslie McCallum, LTI Box 951 or Eames Rm. 310.

FOR SALE

For Sale - 1965 Buick LeSabre. Good Condition and Excellent Running Order. The following are new: Battery, and Distributor Cap Wirings. 70,000 miles Complete Braking System Overhaul with new parts installed. Asking \$600. Contact at L.T.I. Box #2024 or Room #1218 at Towers

For sale: New Lafayette stereo amp, 10 watts cost \$42 asking \$25 box 1018.

FOR SALE: Black 1965 Ford Falcon. Has a few small dents, but no major dents. Has a new starter, a new muffler system, and a new battery. Also has 4 new tires, 2 new snow tires and 2 spare tires. The new tires alone are worth more than \$200. Good cheap reliable transportation. Have to sell to help pay for new car I am buying. Asking \$150, but will take best offer. If interested contact Steve at Box 1931 or call 453-8908 after 6 P.M. and ask for Judy.

If interested in piano lessons, contact Arthur Houle - Tel. 452-

For Sale - One beautiful diamond ring. It's circular cut with a 14k gold Tiffany setting - 50 points. Never been used. Valued at \$600, will take best offer. Contact K.C. box #818.

WANTED

HELP!!! Need info on 6 to 8 engine swap in a late model Ford van. Would like to see a V8 factory set-up. Would really appreciate some info, no wheels right now. 458-9705 or box 1018.

Need a ride to Bedford exit on Rt. 3, Monday through Friday. Willing to help with expenses. Contact Jim, Box 2337.

PERSONALS

Answer to the question of two weeks ago concerning what the outcome would be if you crossed Mr. Norton with Fat Frank. Well, here it is folks. TINY TIM Mc. Signed, All parties concerned

Dirty Dozen There will be a special meeting Wednesday . OBJECT: To give our Senate President a "Necktie Party". The Field Marshal

The sixty-four dollar question of the week is who will fall into the steps of our fearless floor counselor? Possible candidates are Brett, Lenny, Steve??, Gary, John, and Joe. Watch out for Wally though, on the outside he's a dumb Polack, but really he's a charmer.

Dear Tim, Is it possible for you to act normal for a change. You have been acting really strange lately. Let's hope that Yonker's air straightened you out. Signed, The rank and file members of W.W.C.

Yes folks it's true. Another one of the boys has departed from being whipped into being hooked. Gooooooollllllly Mike you are whipped forever. Signed, The Hog

Dear Tim, You have been elected to president of the Hog Society of America. You must now choose a vice president. Choose wisely my good man, remember what happened to R.M.N. Chow

Dear Tim Mc., For a while there Tuesday nite it looked like you weren't coming back from Yonkers. Couldn't get away from Mom's cooking huh? With the shit they serve at the caf we don't blame you! Signed, The HOG P.S. Is there really a Santa Claus?

MISSING Knap-sack containing needed books and notes. Please return; no questions asked. Contact David Roscoe at Box 1861 or Rm T1115.

Rough Ralph, Well Phil's party didn't turn out as well as thought-Fran was on the bottle all night. I hope your party this weekend will be more casual, so make sure you invite Gail from Maynard and don't charge her for drinks. Freewheeler

P. Bear, Thanks for the great bear. It's been 1 week and three days since last Sun. Maybe we'll make it 'til Nov. 16. Love, Dolly

To whom it may concern: This is to inform you that I AM NO LONGER 16!!! C.C. (alias Widder Twilly)

Leslie, You were right, loving you is the right thing to do!!! Love,

Denise & Leslie, We love you! Alan & Rick

Dear Maroon Vet (L64-779): Sorry, I didn't know 5 spaces were reserved for you. By the way, how did you like climbing through the passenger side?? It's better than a parking ticket!! A Better Car

SKY-SURFING CLUB Meeting this Thursday October 24th: 12-2pm. B118 New and old members are urged to attend. Final plans for the October 26-27th trip to Cape Cod will be discussed. Bring bus money. ANY-ONE INTERESTED BUT NOT YET SIGNED UP, DROP BY ANYTIME.

Stevens Studio invites all seniors (i.e. Class of 75) who haven't had their senior pictures taken yet or who want a resitting to come to Cumnock Hall on Oct. 29, 30, 31 and Nov. 1 to have that mug shot.

How come nobody has answered my request? Let's see a little more work in the Senate and watch those elections! Hi John. Lisa G

Dear Drug-Habit, That stuff you found didn't even give me a buzzzzzzzzzz gs

Dear Bob, What ever happened to the orange juice. Signed, Goofer-Slowpoke

SENIOR PORTRAITS ARE COM-SENIOR PORTRAITS ARE COMING

Herr Doktor Dave, I heard that you used pole - zero compensation in the E-MAG test. During the test I got the pole. And for the mark I got the zero! E.E. Rider

Notice: The Dirty Dozen do not exist!!! The Dirty Dozen

Doctor Dave Wunsch, Last week we talked about Retarded Potential in E-MAG 2. Isn't that what happens to a student after 4 years at L.T.I.?

WARNING: E-MAG may be hazardous to your health! Chronic use may cause insanity and destroy the B-fields of your brain. Shaft

To all those Basketball players who want to join the RETIRED THREE. We'll see you in the RAT night. THE RETIRED THREE

ATTENTION

There will be a meeting this Wed. nite to discuss plans of future acitivies which the W.W.C. will engage in. . . Attendance is mandatory. . . Any person missing the meeting will have to forfeit membership in this fine society. Openings for membership are always available. See any member for an appointyou in . . . Signed, The Mad Ripper Offer

Marcia, We knew you had control over Mike, but already The whip of your choice will be made soon. W.W.C. P.S. Congratulations!!!!!!

Good Grief Mike, With your order in for a whip there will be an unbelievable strain put on the assembly line. Congratulations again on biting the dust! A party is in order. P.S. Hope it is a big reception!!!!

ish logic for you. PAUL M., IS it true that you flash those moons because deep in-

Wally, How is it possible to miss

a pheasant ten feet away? Easy!!

Don't pull the trigger. That's Pol-

side you wish your face looked like your behind HA HA!!!

To the CE's resident vexologist: Supercivil was great. I put up with Humus, but I will not stand to be called Swiss Cheese or Gravel. You must realize that I was playing a statically indeterminant position. I'll be broken in before the next match. -Humus

VW & NY'er, Hey VW: I think I've got Judy booked to come up here for a special performance. Hey NY'er: I'll get you a sleeping bag if you can cook. As always; I'd rather be climbing. -Supercivil

Big Bozo; We are all Bozo's here at Tech. This is true as our minds go slow. How would you like to recreate your mural on my office wall? -Little Bozo

NEWCOMER, Is it true you also go under the alias of Steve Adam, and that you used to drive a very quick VW type 3 fastback? Nice dune buggy you got nowadays. ????

HEY, Patriotic Charger! I wanna run ya when I get m'ignition wires fixed up. Jest fer da fun of it. Do new front ends make U go faster . or did U do it to spend some of that good ol' green stuff? U know who

To Mr. Purple Toenails: Hello and Goodbye. Love, Ray's Roommate

RITA, Dinners would be a lot quieter without you. Could you please learn how to use a knife and fork properly. The Rowdy Ones

To Hockey Shirt, Please let us know if you are really from Colorado. Herrman's Friends

Defending B.V.'s Honor

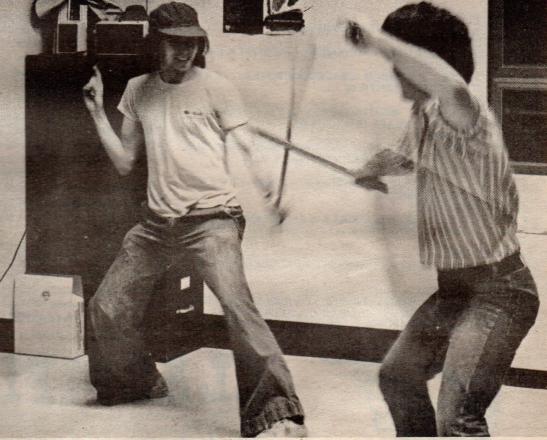

The cause . . .

Early one Text layout night, as Supercivil and the N.Y.er were attempting their futile dirt nomework, there entered fair maiden B.V., Stage Left. Being the fair maiden that she is, she politely requested the use of one of the Text's noble printing machines. Supercivil, being basically a villain at heart, declined her the right of us-

ing said machine. Taking an opposing viewpoint, the gallant N.Y.er wished to allow her the use of the machine. A verbal battle between the N.Y.er and Supercivil arose. Supercivil, taking the viewpoint that maid B.V.'s extra curricular background was far below that of his own. The N.Y.er, on the other hand, was of the opin-

ion that said fair maiden was indeed of high moral fiber and should be allowed the use of our noble printing machine. It was jointly agreed upon that the only honorable way to circumnavigate the problem at hand, was to do battle as in the days of olde. Taking the Text staff in hand, Supercivil cried, "EN GARDE!". Being of

and the result . . .

Text Organizational Meeting ALL STAFF MEMBERS ARE URGED TO ATTEND!

\$2.50Steakburger and French fries

EMERSONS

Pitcher of beer included in the price of the meal.

Sunday thru Thursday only.

Framingham — 1280 Worcester Rd. (Rte. 9) — 879-5102 Peabody — Routes 1 & 128 N — 535-0570 Newton — 1114 Beacon St. at 4 Corners — 965-3530 **Lawrence** – 75 Winthrop Ave. (Rte. 114) – 687-1191 **Randolph** – 493 High St. (Rtes. 28 & 128) – 986-4466 strong moral fiber himself, the gallant N.Y.er grabbed the Westgott, a precision rule, in order to defend B.V.'s honor, as well as his own person.

In the ensuing battle, the notorious Supercivil proved no match for the mighty N.Y.er, as with mighty strokes he reduced the Text staff to splinters. One splinter, narrowly missing the head of WLTI's man on the scene T.J. T.J., being basically a coward at heart, (and also aware of the danger involved toward his own person) quickly departed the field of battle. Supercivil, still having part of his staff in hand, made one final advance towards the N.Y.er. The N.Y.er, with reflexes like a bolt of lightning, quickly turned and repelled Supercivil's attack. Now that he was disarmed, Supercivil faced his opponent, tipped his hat, and conceded defeat. A virtuous victory for the N.Y.er. The honor of maid B.V. had been upheld.

Moral: Never judge the power of the Text staff by its size. . . .
